

IRON
HACK

Day five

Friday*, 23rd January

* IT'S FRIDAY!!!!!!

All Right, All Right, All Right!

Just remember...

Lunch together today!

Recap

- Intro to unit testing & RSpec
- The wonderful world of TDD
- Refactors & test doubles
- Sinatra routes & redirects
- Sinatra views & ERB
- Sinatra sessions & Active Record

Day five, Friday 23rd

- More than Ruby
- One big exercise
- Afternoon misc

The Ruby World

The community

- Innovative, edge, active
- Gems are constantly updated and improved
- More and more alternatives and possibilities emerge each day

More than Rails

- RubyMotion
- Ruby versions and implementations
- Performance

Read

- Read Ruby books! (e.g. *Programming Ruby*)
- Subscribe to newsletters! (e.g. *Ruby Weekly*)
- Use Twitter!
- Never get behind!

Contribute!

- Create a gem! Fix a bug! Propose a new feature!
- Just give back, for everyone who has contributed before

Conferences

- Not thought to learn something specific (though some talks might do that)
- Focused on encouraging people to improve the community, and to refresh yourselves
- Find new motivations!

So, to wrap up this
week...

The big exercise!
